Maine Section ASCE Meeting
Wyndham Hotel, Portland, Maine
Thursday, October 22, 2009

Panel Discussion On TABOR II

Please join us for a presentation and panel discussion of Maines’ TABOR II. As a direct result of responses to a discussion presented in the Section Informant, the Maine Section is hosting a meeting to present information about TABORII

Maine Leads, a non-profit advocacy group, has collected signatures for a citizen’s initiative entitled “An Act to Provide Tax Relief”, often referred to as “TABOR II”. The initiative was written by the Maine Heritage Policy Center, an organization dedicated to promoting conservative public policies. TABOR II makes changes to the current law, that since 2005 has imposed spending limits on Maine’s State, county, and municipal governments and all school systems. That law, many elements of which were developed by the Maine State Chamber of Commerce, is referred to as “LD 1”. TABOR II repeals the LD 1 spending limit system as it applies to State government and replaces it with a structurally different system.

Our Speakers from *TABOR NOW!* and *Maine Tomorrow* will make a presentation on a pro- and con opinions on TABOR II and then participate in a panel discussion with questions from the audience. You participation in this presentation will provide you with information to make an informed decision, influence decision making, while networking with engineers within the state.

The Meeting will be held at the Portland Wyndham Hotel on the Maine Mall road. [Click Here for Directions](#)
